| Hva  | syntax    |         | Hvilke elementer kan det brukes på |
|--|-----------|---------|------------------------------------|
| X (avstand i x retning fra rammen rundt figuren til figuren) | svgX      | numeric | svg, rect, text                    |
| Y (avstand i y retning fra rammen rundt figuren til figuren) | svgY      | numeric | svg, rect, text                    |
| Width (bredde figur)   | svgWidth  | numeric | svg, rect                          |
| Height (høyde figur)   | svgHeight | numeric | svg, rect                          |
| Cx (setter x akse senter av figur)                           | svgCx     | numeric | circle, ellipse                    |
| Cy (setter y akse senter av figur)                           | svgCy     | numeric | circle, ellipse                    |
| r (radius)   | svgR      | numeric | circle                             |
| rx (x-radius for avrunding                                   | svgRx     | numeric | rect, ellipse                      |

| av hjørner)                                 |               |                 |   |
|---|---------------|-----------------|---|
| Ry (y-radius for avrunding av hjørner)      | svgRy         | numeric         | rect, ellipse   |
| X1 (x-akse koordinat for starten av linjen) | svgX1         | numeric         | line  |
| Y1 (y-akse koordinat for starten av linjen) | svgY1         | numeric         | line  |
| X2 (x-akse koordinat for slutten av linjen) | svgX2         | numeric         | line  |
| Y2 (y-akse koordinat for slutten av linjen) | svgY2         | numeric         | line  |
| opacity                                     | svgOpacity    | numeric 0.0-1.0 | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
| font-size                                   | svgFontSize   | numeric         | group, text   |
| font-weight                                 | svgFontWeight | numeric         | group, text   |

| letter-spacing    | svgLetterSpacing    | numeric         | group, text   |
|-------------------|---------------------|-----------------|---|
| word-spacing      | svgWordSpacing      | numeric         | group, text   |
| fill              | svgFill             | colour          | group, rect, circle, ellipse, polygon, path, text                       |
| fill-opacity      | svgFillOpacity      | numeric 0.0-1.0 | group, rect, circle, ellipse, polygon, path, text                       |
| stroke            | svgStroke           | colour          | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
| stroke-width      | svgStrokeWidth      | numeric         | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
| stroke-dasharray  | svgStrokeDashArray  | string          | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
| stroke-dashoffset | svgStrokeDashOffset | numeric         | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |

| stroke-opacity | svgStrokeOpacity  | numeric 0.0-1.0 | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
|----------------|---|-----------------|---|
| transform      | <pre>svgTransform matrix() translate() scale() rotate() skewx() skewy()</pre> | string          | group, rect, circle, ellipse,<br>line, polyline, polygon, path,<br>text |
| viewBox        | svgViewBox  | string          | svg, symbol, marker, pattern  |
